

NORSTAR
STEEL RECYCLERS

Car/Vehicle Recycling

Derelict car bodies are one form of scrap metal purchased and processed by Norstar Steel Recyclers

Our modern fleet of car compactors travel all over Victoria as well as Tasmania, South Australia and New South Wales removing stockpiles of car bodies from waste disposal sites, auto dismantling yards and private properties. Norstar Steel Recyclers prides itself on providing the most efficient and environmentally friendly car compaction service.

Smaller quantities can be collected, particularly in metropolitan areas. Our recycling depots in Dandenong, Laverton, Reservoir and Bayswater North are equipped to receive deliveries from commercial, industrial and general public while providing safe and efficient unloading facilities.

Norstar Steel Recyclers inspects every vehicle on receipt at our yards, once the correct identification of the car is inspected and passed, Norstar Steel Recyclers can go on with the processing procedure.

You can be confident in relying on our environmental credentials while also being assured you'll get competitive rates given our scale and market development expertise.

Car bodies containing LPG gas tanks, will not be collected, or accepted by any of our Recycling Depots.
