

NORSTAR
STEEL RECYCLERS

Council/Transfer Station Services

Over the 70 odd years of service to the scrap metal industry, Norstar Steel Recyclers has worked in many Metropolitan and Regional areas of Australia developing scrap metal service plans.

We pride ourselves on having long standing relationships with national organisations, numerous state level organisations, local government, local councils, localised waste management groups along with privately owned tips and transfer stations.

Norstar has the scope and foresight to cater for most if not all regional areas.

Regardless of whether you require bin services or mobile plant and equipment to clear a stockpile, Norstar Steel Recyclers can cater for your every need.

References are available upon request.

Service is the key, let Norstar help work out a service plan for you.
