

**NORSTAR**  
STEEL RECYCLERS

# Industrial & Commercial Services

With over 70 years in service, our experience ensures you the best result

Whether you require a long term partner or a short term solution, Norstar will cater for the need to properly assess your scrap metal service issues. We understand that for the majority of the time, for Industrial customers, the scrap metal stream is a by-product and not the main focus of your business. With the growing strains on time and efficiencies, Norstar can help with relieving the pressures of your key personnel by letting our people manage your recycling needs.

Norstar's capacity and logistics has the ability to respond 24 hours a day, if necessary, and sets itself as a key rival in the scrap metal industry.

Our continued commitment to environmental & safety standards assures our clientele of work practices second to none throughout all processes.

*From a thimble to a locomotive, Norstar will provide a service to cater for them all.*

Norstar Steel Recyclers prides itself on offering a total scrap metal collection services, including the highest level of service with tailor made solutions covering all aspects of metal recycling. We provide a Safe, Efficient and Reliable service both at our yards and onsite, ensuring a quick turn-around.

National deals can also be catered for with the help of long term alliances with interstate recycling service providers. Norstar Steel Recyclers has worked diligently, professionally with integrity and honesty to develop a loyal customer database from all levels of the community, whether it's domestic, commercial or industrial, Norstar and its people will help plan a scrap metal solution.

**Norstar Steel Recyclers is able to offer certified destruction of your obsolete or unwanted equipment, complete with a Destruction Certificate.**
